## OBJECTIVE

I am a Computer Science undergraduate with strong skills in Web Development and a passion for Data Structures and Algorithms. I enjoy building scalable and user-friendly web applications while continuously improving my technical and problem-solving abilities. Through hands-on projects, I have strengthened my understanding of frontend and backend technologies. I am a quick learner, adaptable, and comfortable working in team environments, always eager to take on new challenges that contribute to my growth as a developer.

| <ul style="list-style-type: none"><li><b>Secondary School (Class 10th)</b><br/>CBSE Board</li></ul>                            | <b>2020-2021</b><br><b>Percentage-92%</b>         |

## PROJECTS

- Smart India Hackathon(SIH) 2025 - Team Member**
  - Developed and designed the frontend interface for an AI-based Face Recognition System, ensuring smooth user interaction and responsive design.
  - Integrated the AI face recognition model with the frontend for real-time user identification.
  - Assisted in model implementation, testing, and performance optimization to enhance recognition accuracy.
  - Collaborated with team members to build and present a functional prototype to the judges.
- Smart Expense Tracker & Budget Agent — Innovation Event, KIET Ghaziabad (2025)**
  - Developed a web-based AI system to help users manage and track daily expenses efficiently.
  - Designed and implemented the frontend interface, ensuring a responsive and user-friendly experience.
  - Integrated AI logic with the frontend for real-time expense analysis and tracking.
  - Designed a working prototype and presented the complete workflow at the college innovation event.
  - Improved web development, presentation, and problem-solving skills through real-world implementation.

## CERTIFICATIONS

- AWS Certified Cloud Practitioner – Earned foundational certification in cloud computing concepts, AWS services, security, and pricing models.
- Certification in Database Programming with SQL – Awarded for successful completion of database design, queries, joins, and optimization techniques.

## TECHNICAL SKILLS

- PROGRAMMING LANGUAGES:** C, C++, PYTHON, HTML, CSS, JAVASCRIPT.
- LIBRARIES:** NUMPY, PANDAS, MATPLOTLIB, SQL.
- DEVELOPERS TOOL:** GITHUB, VS CODE, VISUAL STUDIO.
- LANGUAGES:** English, Hindi.
- OTHERS:** Technical Writing and Presentation, Team Leading, Problem Solving
